**Take credit for inflation**

**WEEKEND RUMINATIONS**

The shallowly raised bit of inflation for more than five years reflects in the government's position that inflation is under control. The chief economic advisor in the finance ministry insists that the inflation rate is under control and this is due to the sustained efforts of the government to control inflation. The government has been successful in controlling inflation and the inflation rate is expected to remain low in the near future.

**What lies ahead for Libya?**

The challenge facing the Libyan leader, Muammar Qaddafi, is to balance the interests of the various political factions and to ensure the prosperity of the country. The economic situation of Libya is characterized by a high degree of dependence on oil exports, which accounts for a significant portion of the country's GDP. The government needs to focus on diversifying the economy and reducing its reliance on oil revenues. To achieve this, the government has set ambitious targets for reducing its dependence on oil and diversifying its energy mix. However, the government faces several challenges, including political instability, terrorism, and international sanctions. The government needs to work closely with international partners to address these challenges and promote economic growth.
